

ACRYLIC (PMMA) & POLYCARBONATE SHEET

ACRYMA XT - EXTRUDED PMMA SHEETS

- Good mechanical resistance
- Very good impact resistance
- Good dimensional stability
- Minimal moisture absorption
- Excellent UV resistance
- Integrated PE film protection.
- Thickness from 1-25mm
- Standard Size: 3.05*2.05m
- Standard colour: Clear
- Other colours available upon request

ACRYMA GS - CAST PMMA SHEETS

- Excellent optical clarity & transparency - High light transmittance
- Higher resistance to crazing - Less internal constraints in the film
- Laser cut for better results
- Mainly used in furniture and aircraft windows
- Integrated PE film protection
- Thickness from 1-25mm
- Standard Size: 3.05*2.05m
- Standard colour: Clear

POLYCARBONATE - PC SHEETS

- Strong material
- High impact resistance
- Mainly used in construction & automotive
- Integrated PE film protection
- Thickness from 0.7-15mm
- Standard Size: 3.05*2.05m
- Standard colour: Clear

Stock available in Antwerp OR 10 days lead-time for tailor made enquiries on sheet sizes & thickness
